#### RELATED QUESTIONS

### **What are baby groundhogs called?**

Pregnancy goes by fast for them. Groundhog mating season is in the early spring and, after only a month-long pregnancy, mother groundhogs typically give birth to a litter of two to six blind, hairless babies. Young groundhogs are called kits, pups, or sometimes chucklings.

---

### **Do groundhogs live in groups?**

In general, groundhog social groups consist of one adult male and two adult females, each with an offspring from the previous breeding season (usually female), and the current litter of infants.

---

### **Are groundhogs mean?**

Groundhogs, also known as woodchucks, are found all over central and eastern US. They dig burrows in grassy areas and are known to eat through gardens. They're hard to get rid of because they are aggressive animals, and can have rabies.
