

MORE QUESTIONS AND ANSWERS

Can you scratch your throat with food?

You (or your child) has an abrasion (scratch) of the back of the throat (pharynx). This can be caused by swallowing a sharp piece of food such as a bone, snack chip, or bread crust, or other sharp or abrasive object.

Feel Like Food Is Stuck in Your Throat?

“If you can’t swallow your own saliva, start drooling, have shortness of breath or difficulty breathing, you need to seek immediate medical attention or call 911,” says Dr. Lee.

Scatched throat while eating. How can I treat this?

The other day I ate some food, trying to eat fast to rush to an appointment, during that time i felt like i scratched my throat , thinking the irritation would go away, I decided not to see anyone. It irritated the whole day and i woke up unusually early due to the irritation.

RELATED QUESTIONS

What happens when you scratch your throat?

Sharp, long, or large objects can scratch or cut your throat, your esophagus, and your stomach if they get stuck or if they are swallowed. When this happens, these areas can bleed or get infected. If the object was stuck in your throat or esophagus, your doctor probably removed it.
