

MORE QUESTIONS AND ANSWERS

How do I find my highest note?

If you can sing it comfortably, go on the number 2 and so on, until you get to the last note you can sing comfortably. Remember that one, it's your lowest note. To discover the highest note you can sing, start by clicking on number 1 in the second section. You will hear the piano play the first note (E4).

RELATED QUESTIONS

What is a good vocal range?

Vocal range of 2.5 to 3 octaves is common among professional singers. Even though 3 octaves or higher is rare there actually a lot more singers with 4 octave vocal range than people think. ... Most singers do not sing in a range that they are not comfortable with.

How many octaves do I have?

Calculate the octaves in your range. You can, therefore, determine the number of octaves in your vocal range by counting the total number of notes between your highest and lowest pitches as sets of seven. For example, if your lowest note was E2 and your highest note was E4, then you have a range of two octaves.
