How do you fix a stuck NPC in Skyrim?

Try opening the console (` key by default), clicking on the NPC in question, and typing "resetAI". That should reset the NPC's AI and hopefully unstick her. If that doesn't work, you can try "recycleactor", but that may have side effects. The character will show up at their default position.

How do you get unstuck in Elder Scrolls Online?

Use the “Get Me Unstuck” option under Help (you can also type /stuck into the chat console) and you should port to nearest Wayshrine. *If you're stuck in combat try waiting for someone to kill the mob or crash the game. If you're still stuck in a bloody wall after all that then contact ESO Support.

How do I trigger a quest in Skyrim?

Use the "setstage" console command, followed by the quest's ID and stage number, both of which you should find on the UESP website.
