### **How long do you cook Hamburger Helper?**

Reduce the heat so it's not furiously boiling (a rapid simmer is good). I ended up cooking mine over medium heat. Let it cook uncovered until the pasta is tender and most of the liquid has been absorbed (about 13-15 minutes). I stir it every couple of minutes.

### **Does Tuna Helper go bad?**

I've found that if it's 6 months or more past the date, the sauce doesn't thicken like it should, and doesn't have as much flavor. You might also consider that some of the tuna and chicken flavors are good without adding tuna or chicken, and can be used as a side dish.
